

VIP DogHotel Price list

One of the reasons the dogs and their owners love VIP is the fact that the dogs spend their days socialising, rather than being cooped up in a private indoor/outdoor area! Therefore your dog has to be socially capable in a pack.

Before a dog can become a new member of the VIP Pack, there are a few (social) requirements for everyone's safety and comfort. Before a booking for longer than 2 nights can be made, every new client has to have been with us, for at minimum a partial daycare, and/or one night of boarding.

The comfort of your dog and that of other guests is our priority. Unnecessary barking during the night due to stress or anxiety could be resolved if you let your dog get comfortable first by a few sessions of Daycare, before Boarding for a longer period.

When a guest would continually bark through the night, it would make him unhappy as well as our other guests. Therefore we reserve the right to inform the owners and ask them for a Plan B. We carefully make this decision for the love we have for your, and all VIP dogs.

We are happy to help socialise your dog through our Daycare Service. We have been working with dogs having separation anxiety or unsocialised behaviour.

MALE dogs do not have to be castrated, however excessive hormonal behaviour will not be accepted.

FEMALE dogs do not have to be Castrated/spayed, however 2 weeks before, during and 2 weeks after their period she will not be allowed at VIP.
